Documentary movie production to mark the International Day for the Eradication of Poverty in Montenegro

Background Information:

The observance of the International Day for the Eradication of Poverty can be traced back to 17 October 1987. On that day, over a hundred thousand people gathered in Paris, where the Universal Declaration of Human Rights was signed in 1948, to honour the victims of extreme poverty, violence and hunger. They proclaimed that poverty is a violation of human rights and affirmed the need to come together to ensure that these rights are respected. General Assembly declared 17 October as the International Day for the Eradication of Poverty and invited all States to devote the Day to presenting and promoting, as appropriate in the national context, concrete activities with regard to the eradication of poverty and destitution.

October 17th presents an opportunity to acknowledge the effort and struggle of people living in poverty, a chance for them to make their concerns heard, and a moment to recognize that poor people are the first ones to fight against poverty. Participation of the poor themselves has been at the center of the Day's celebration since its very beginning. The commemoration of October 17th also reflects the willingness of people living in poverty to use their expertise to contribute to the eradication of poverty.

The various studies have shown that 12.2% of the population of Montenegro is poor. The fall in living standards and the rise in poverty in Montenegro over the last decade is primarily a consequence of a significant drop in economic activity. This in turn, was caused by numerous political and economic crises, conflicts in the region, isolation, transition processes etc. The poverty profile of a country is most often tied to the insufficient income to obtain the minimal basket of goods and services to fulfill basic needs. It has, however become clear that poverty is manifested in different ways, including the following: insufficient income and resources needed to secure a sustainable existence; hunger and malnourishment; poor health, limited or no access to education and other basic services; lack of energy and a degraded environment; increased mortality, including mortality caused by illness; etc.

In Montenegro, the poverty rate is largest within the vulnerable groups that include employees who lost their jobs, elderly people with fixed income and especially vulnerable groups such as: children, women, refugees and displaced persons, and Roma population. Also the regional poverty distribution shows that the most vulnerable are the residents of northern Montenegro, which has an overall poverty rate of 19.3%, and where 45% of the total poor are located.

Scope of Work:

On the occasion of the International Day for the Eradication of Poverty, the objective is to create a video product to contribute to raising awareness of state institutions and general public about the people in need.

The overall responsibilities of the Offeror/Contractor are as follows:

- 1) Creation of relevant scenario and full production of a documentary under the working title "Five Tales of Common Folk" which will contain 5 short stories about some representatives from the most vulnerable groups in terms of poverty: Roma population, refugees and displaced persons, children, women (especially as heads of households), people who lost their jobs in transition processes, persons with disabilities or people impoverished due to the financial strain of their illness (e.g. multidrug-resistant tuberculosis), elderly people on a fixed income, households with income below the poverty line, etc.. Some of the stories should concern the North of Montenegro.
- 2) The duration of the documentary should be 10 minutes (approximately)

- 3) The documentary scenario and the documentary itself should work on concrete families / individuals from the targeted groups which are to be identified by the Offeror/Contractor, with one limitation: the Offeror/Contractor's proposal in this regard shall not necessarily be accepted. In the case relevant representatives of UN Agencies in Montenegro have another proposal the Offeror/Contractor shall be obliged to accept it.
- 4) Using an appropriate/heterogeneous artistic approach, the documentary should tell stories about people left destitute by the years of conflict in the Balkans, isolation, transition processes, etc.. The stories need to be strong and striking, but the final message should not be pathetic or pessimistic. These people's stories need to reflect their human pride and they should give hope for a better tomorrow.
- 5) To an extent possible, the documentary should depict the side effects of poverty: environmental degradation, lack of education, social exclusion, low level of awareness in health care, increased mortality, etc.
- 6) Language requirements: The documentary scenario shall be prepared in the language officially spoken in Montenegro. Narrative coverage shall be prepared in both English and language officially spoken in Montenegro. Provision should be left to add other UN language(s).
- 7) The documentary should avoid the trap of being too scholastic and keen on offering problem solutions: the emphasis should be on portraying human beings trapped in poverty and their emotions.

Timing and Duration:

- 1) Ideally, the Contractor shall commence the work upon receipt and contractual signature of contract.
- 2) Total pre-production, production and post-production time (including interim review, narrative and final production) should not exceed four weeks.
- 3) Active participation of relevant representatives of UN Agencies in Montenegro is envisaged. The first cut of the documentary should be provided for review and comments to relevant representatives of UN Agencies in Montenegro.
- 4) Upon satisfactory review, Contractor shall complete the work and submit for UN's approval (legal consideration for broadcasting rights).
- 5) The quality of the documentary should be broadcasting one.
- 6) The Contractors shall submit four copies of the final version of the documentary in DVD and DVCAM formats.

The overall work on the documentary needs to be completed no later than October 11th, 2007.

Requirements and Qualifications:

The Offeror is expected to have the following qualifications:

- o Minimum of three (3) years work experience in the area of film/reportage/documentary writing, producing, directing and editing;
